ABOUT US

Established in 2011, TDS Projects Group is a multidisciplinary engineering and project delivery company providing innovative, cost-effective solutions to the mining, industrial, commercial and renewable energy sectors.

Our experienced team combines technical expertise with practical construction knowledge to deliver projects safely, efficiently and to a high standard of quality. From concept and detailed design through procurement, construction and commissioning, we offer complete project lifecycle solutions tailored to our clients' requirements.

Our commitment to excellence, integrity and innovation has enabled us to build long-term relationships with clients across Southern Africa.

INDUSTRIES

01

Mining Infrastructure

02

Commercial Infrastructure

03

Renewable Energy

DISCIPLINES

Civil Engineering | Structural Engineering | Mechanical Engineering | Piping and Platework | Electrical Control & Instrumentation

OUR SERVICES

01

Engineering Design & Drafting

Process Design | Detailed Design | 3D Modelling

02

Fabrication

Our Fabrication business unit specialises in steel fabrication for the industrial, construction, engineering and mining sectors.

03

Construction

Safe, well-planned structural, piping, civil and mechanical construction, including underground mining infrastructure.

04

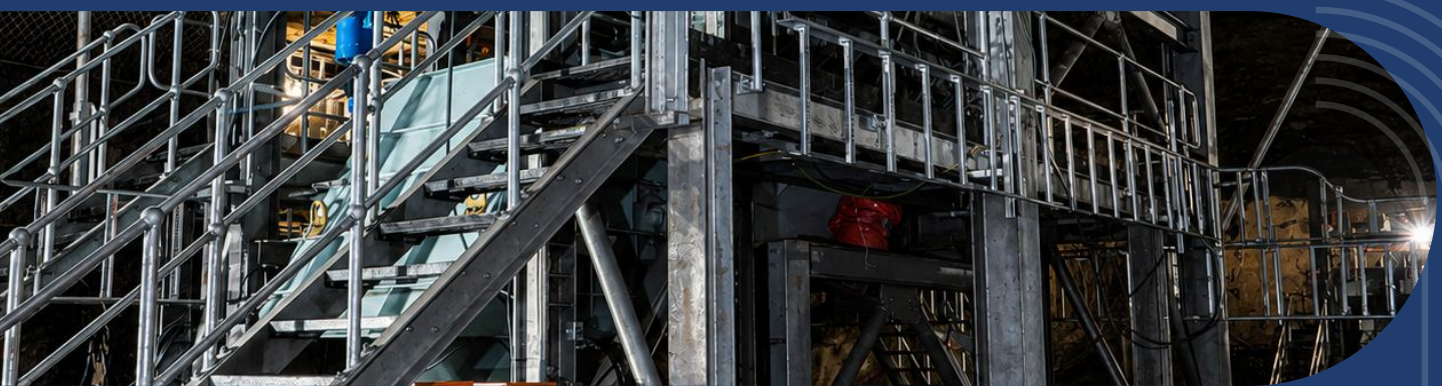

Procurement

We source quality materials and equipment to ensure efficient project delivery.

05

Project Management

Delivering projects safely, efficiently and on schedule.

Our Vision

We unlock value for our stakeholders by providing innovative, unique, modern, original, advanced and pioneering construction solutions to our clients.

Our Mission

We provide fast, efficient, and flexible engineering solutions through design, fabrication, and construction. By solving complex challenges with speed and precision, we build lasting partnerships and deliver quality infrastructure that works.

Integrity

We conduct our business with honesty, fairness and the highest ethical standards in every interaction.

Accountability

We take full ownership of our responsibilities and deliver on our commitments without compromise.

Innovation

We embrace creative thinking and continuous improvement to drive smarter, safer, and more efficient outcomes.

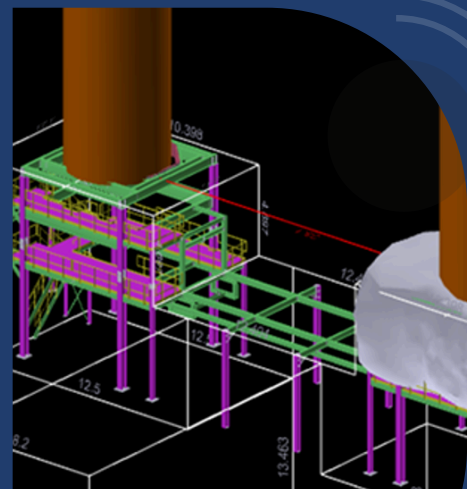

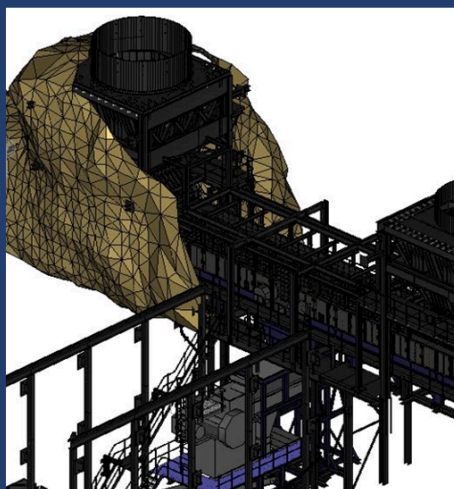

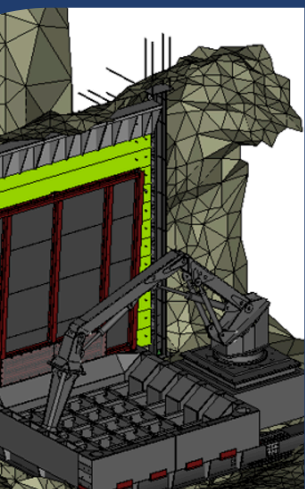

Sustainability

We are committed to building a better future by minimising our environmental impact and promoting long-term value for our stakeholders and communities.

Reliability

Our clients trust us to consistently provide quality solutions, on time and to specification.

ENGINEERING DESIGN & DRAFTING

Engineering Design & Drafting

The engineering unit offers products and services designed to provide the most efficient solution for our clients' needs, whether studies or projects.

The key to our success is the quality and experience of our people. Through in-house resources and associations, the unit takes engineering from early concept and initial evaluation through to detailing and execution.

The design team includes civil, structural and mechanical engineers and draftspeople across various disciplines.

A dedicated team is assigned to each project, and its close working relationship with the client ensures the highest engineering standards are achieved.

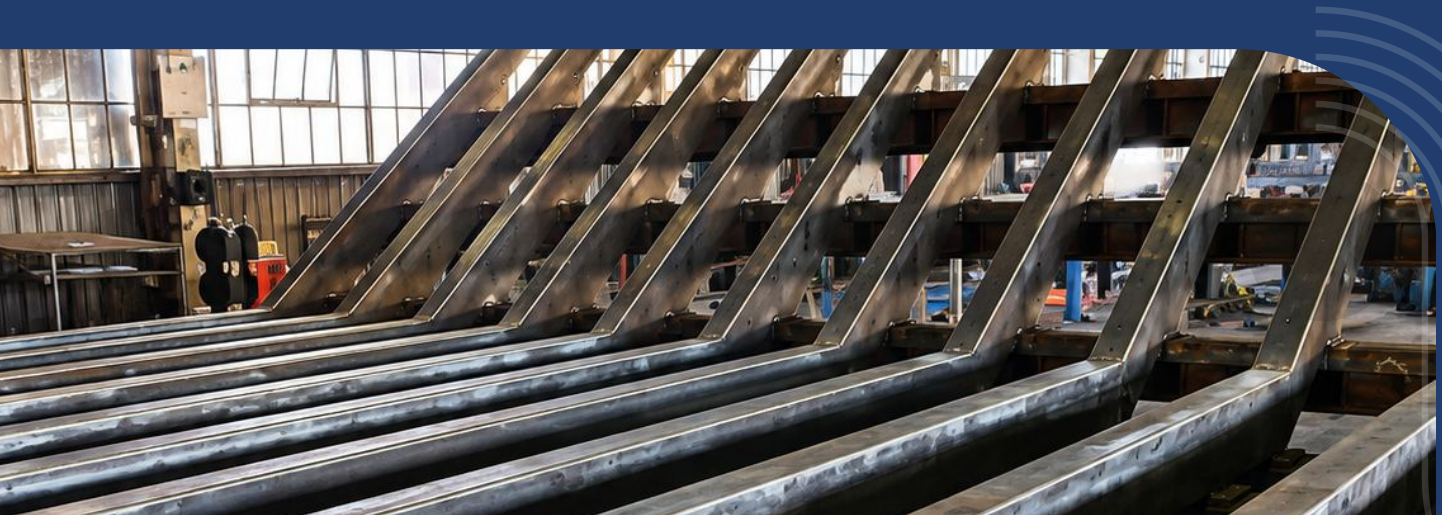

FABRICATION

Our Fabrication unit specialises in steel fabrication for the industrial, construction, engineering and mining sectors.

Our Offering:

- All stainless steel & mild steel platework
- Light steelwork
- New Conveyances, skips
- Cages and reconditioning
- Sinking stages
- Shaft shutters
- Shaft steelwork
- Rehabilitation of steel and platework
- Heavy Engineering structural fabrication
- All Conveyor fabrication
- Ability to pre-assemble, number the parts and de-assemble structures manufactured at our facility
- Complete control and accountability (vertically integrated)
- Tailored to underground excavation requirements
- Steelwork tracking and traceability
- Fast turnaround on rework
- Bulk-order discounts available
- Own Transport Fleet

CONSTRUCTION

TDS is a Pretoria-based, multidisciplinary engineering service provider established in 2011. TDS' management are long standing professionals in the mining industry, each contributing a wealth of unique resources, experience, skills and knowledge in their areas of expertise.

TDS has created and refined business and technical processes that ensure best practice construction methodologies that are executed safely. Our operating model combines a core of critical permanent staff with suitable fixed-term resources added as and when required. We have an established network of human resources across all disciplines that can be mobilised when required.

Our Services

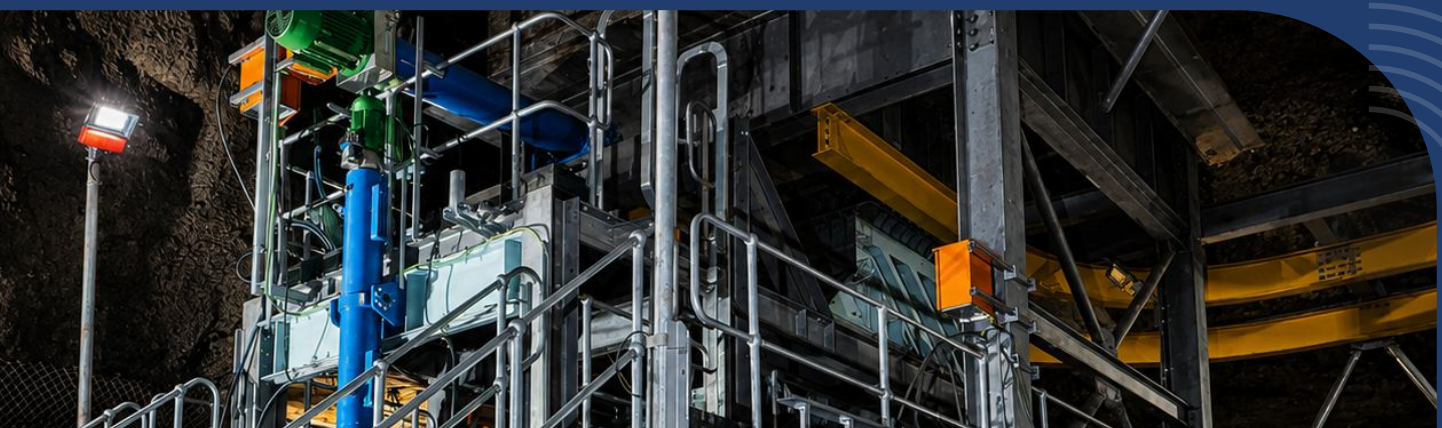

We do not operate as conventional contractors; we provide insight and assistance to the project teams we work with. We can offer a full turnkey solution or tailor-make a specific offering to meet your exact requirements. TDS is competent in executing wide-scope construction projects in underground conditions in the field of ground handling or shaft equipping infrastructure.

01

PROJECT SERVICES

These services set the TDS standard and help ensure delivery of the project on time, on budget and to your satisfaction. TDS strives for maximum client approval by employing the following services across all projects:

- Scheduling & Planning
- Risk Assessment
- Strategy
- Frequent Progress Updating
- Audits

CONSTRUCTION

02

STRUCTURAL & PIPING CONSTRUCTION

TDS has a water-tight methodology for structural erections. We are also able to fabricate and supply steel members and complete structures. We pride ourselves on our piping and conveyor installation experience, but are also able to install other structural materials such as:

- Overland & Underground Conveyors
- Pump Stations
- Bulkhead & Crusher Stations
- Surface & Underground Piping (all types and sizes)
- High Rate Settlers

03

CIVIL CONSTRUCTION

We also have a strong competency in the construction of civils to support the abovementioned structures and the installation of the associated mechanical items. Our civil construction services include:

- Mass Concrete Floors etc.
- Formwork & Reinforcing
- Box Front Civils
- Plinths & Bases
- Concrete Flooring

CONSTRUCTION

04

MECHANICAL INSTALLATIONS

TDS is able to safely and speedily install mechanical items including (but not limited to):

- Rock Breakers & Take-up Winches
- Motors & Gearboxes
- Belt Scrapers
- Vibrating Feeders
- Pulleys, Idlers and Impact Beds
- Conveyor Belting
- Crushers
- Mud Presses
- Apron Feeders
- Pump Stations

05

AD HOC SERVICES

- Steel Fabrications
- Design & Drafting
- Shop Detailing

EC&I

EC&I

TDS EC&I helps clients assess the feasibility of, and then deliver, a complete turnkey solution.

The head of the TDS EC&I division has more than 30 years of experience in the Engineering, Design, Project Management, Manufacturing, Installation, Commissioning and handover of projects in the following fields:

- mining
- petro-chemical
- power generation
- material handling
- mineral processing
- water and waste-water treatment
- Cement and aggregates
- Iron and steel
- Pulp and paper
- Food and beverage
- MV installations up to 33kV

TDS EC&I services include, but are not limited to:

- Complying with all codes, standards and regulations as required by a client
- procurement
- monitoring of fabrication
- project/ contract management
- planning
- construction management
- site management
- execution of the installation
- quality assurance & control
- Health and safety management
- Environmental monitoring & management
- Commissioning
- Documentation
- Installations
- Handover to the client

Any of these tasks can be carried out independently or co-ordinated under the direct guidance of a client's preferred EPCM contractor.

EC&I

EC&I

Installations can also include the supply of, but not be limited to:

- Cable support systems, cable ladders, trunking, angle irons etc
- cabling and termination thereof
- Electrical equipment and instrumentation
- MV panels, MCC's, PLC's RIO panels, distribution boards, junction boxes etc
- Earthing and lightning protection
- Lighting and small power installations
- MV up to 33kV
- UPS, emergency systems
- Power factor correction

CODE OF CONDUCT

At TDS Projects Group, we are committed to upholding the highest standards of ethical behaviour, performance and professional conduct. Each of us—individually and collectively—is responsible for maintaining these standards in all aspects of our work.

Leadership Accountability

Managers and supervisors have a special duty to:

- Contribute and uphold, company policies, procedures, and standards,
- Lead by example,
- Foster a positive work environment that supports, motivates, and empowers staff.
- Ensure the safety of the operations
- Control cost, prevent wastage
- Protect the company's reputation
- Communicate and adhere to the schedule
- Ensure compliance

Responsibility in Positions of Influence

We recognize that working closely with our clients often places employees in positions of power and trust. We acknowledge this responsibility and commit to never neglecting our duties nor abusing that trust.

Scope and Commitment

This Code of Conduct applies to all employees, contractors, and stakeholders associated with TDS Projects Group. We are all accountable for:

- Encouraging and promoting the highest professional and ethical standards,
- Acting with integrity in accordance with our mission and mandate,
- Protecting our company's reputation and shareholder value through honesty, transparency, and ethical conduct.

Respect and Integrity in the Workplace

We are committed to:

- Respecting the dignity and worth of every individual,
- Promoting understanding, compassion, and tolerance,
- Maintaining confidentiality and always demonstrating discretion,
- Building constructive and respectful relationships with our business partners.

Diversity and Inclusion

TDS Projects Group embraces diversity and is committed to equality. We will treat all individuals with fairness and respect, regardless of race, gender, religion, nationality, ethnic origin, language, marital status, disability, political conviction, or any other characteristic. We strive to eliminate all barriers to equality and inclusion.

Continuous Improvement

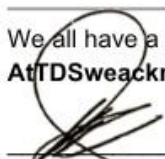

We will continually:

- Improve our policies, procedures, strategies to ensure optimal performance,
- Foster a culture of learning and growth,
- Support positive change, and
- Apply lessons learned from experience.

We all have a responsibility to speak up if something does not look right.

At TDS we acknowledge that shortcuts don't save time, - they cost it.

We build it right the first time.
